MEMORANDUM FOR:

Mr. McGeorge Bundy,  
Special Assistant to the President

I am enclosing a memorandum that attempts to set forth the options open to us in the Cuban affair.

I apologize for the fact that in this case, as always, haste makes length.

I call your attention specifically to two points:

1. I have set out four courses of action as separate options without noting the fact that two or more might possibly be combined.
2. The fourth point of the memorandum embodies a proposal by Governor Stevenson. You may wish to call the President's attention specifically to this since Adlai mentioned yesterday that he hoped to have a chance to discuss his proposal with the President at Hyde Park today.

George W. Ball

Attachment.

(I have just noted on page 10 the arguments against aerial reconnaissance are omitted. This was a casualty of the typing shuffle--not intentional.) *Want 10a*
